

The Pensteel Range of Small Liquid Packs

25/20/10/ & 5 Litre Capacity

Pensteel is one of the premier companies supplying IBCs to the Chemical, Paint, Food and Pharmaceutical industries. Along with IBCs, we are able to now offer a range of smaller packs which, with UN approval complement our current range of liquid containers.

Our Jerricans are made from high-density polyethylene (HDPE) resin by the extrusion blow moulding process giving them strength, rigidity and a high degree of chemical resistance. This offers safety and reliability for the packaging and transport of many liquid substances.

20 & 25 Litre "stacker" Jerry Can
Interlocking design for safe and secure stacking

Most of our Jerricans are certificated for the transport of dangerous goods in compliance with UN packaging requirements. Additionally they are made in conformance with ISO 9001 quality management systems. All UN marked Jerricans are leak tested as specified by regulations.

In addition, the materials used in the manufacture of the Jerricans has been authorised for use in contact with foodstuffs.

Rectangular, square and round shapes are available to cater for all small container packaging needs.

5 Litre Jerrican with Tamper Evident screw cap proved a popular choice in the oil industry
